Villages lies an affordable
and close-knit community
designed for people who
want to live life to the full.

Feel free to live life your way

Retirement village living means so much more than simply moving to a new home. It opens up the potential to truly maximise the years ahead – and live life to the full!

While the bricks and mortar are one thing, it's the sense of community and the friendships and social life that emerge which are the real surprises for many who choose one of our three villages.

Set in two of Perth's most sought-after locations, all surrounded by stunning gardens, close to the city centre, you can have your very own slice of village life.

"Having been here for 15 years, I love the independence of living and the care from the staff and the friendships I have made."

Joan – Lisle Lodge

"Lisle Villages was the best decision I made nine years ago and I have loved living here ever since. I feel very safe in the village and it is very welcoming for all new and old residents."

Davina – Melvista Lodge

The cost of entering one of our retirement villages is generally less than buying a home conventionally, there's no stamp duty to pay therefore selling your home to buy into our retirement village can free up money for you to enjoy on whatever takes your fancy.

We know the importance of family and friends; your friends and family are welcome to visit and stay with you when they do. We even have a guest unit available for visitors for a minimal daily cost.

Large enough to offer a safe and secure lifestyle and small enough that people become your friends and neighbours.

"Beautiful Lake Claremont is adjacent to Lisle and Leaweena Lodge where you can exercise or simply relax and admire the beautiful surroundings and birdlife."

Costs and Ownership

When making your decision, it's important to understand how buying into a retirement village is different from buying a residential property.

As with the majority of retirement villages, Lisle Villages charge a deferred management fee. The Deferred Management Fee (DMF) is the traditional contract model for buying into a retirement village. A DMF contract is a great choice if you are looking to make the most out of your retirement now by paying part of the costs when you move out and saving money up front.

OCCUPANCY RIGHTS

To qualify for a residency, you must be 55 years or above, be retired from full-time employment and be capable of living independently.

LONG TERM LEASE

Our units are occupied on a 'lease for life' basis so while you will not own your home outright, you are granted exclusive occupancy for your life.

UPFRONT COSTS

The purchase price or "Ingoing Contribution" is the current market value of the residence. No Stamp duty is payable under current legislation.

YOUR ONGOING COSTS

Each residence contributes a proportion of the village operating costs of staffing the village, providing facilities and services, and maintaining the properties and villages. When you compare this fee to what you are paying now on rates, water, home maintenance and gardening you will probably be paying an equal amount.

Our current monthly operating fee includes council rates and water rates/consumption.

OUTGOING COSTS

This is payable when you leave the village. You will receive the amount of the new resident's Ingoing Contribution less any costs you may be liable for under your Lease.
